## Note introductive:

- Hidroavioanele sunt aparate mici de zbor de aprox. 17 locuri.
- Daca se considera necesar se poate decide la destinatie ca bagajul de cala sa fie transferat cu salupa sau dupa-amiaza cu un alt hidroavion si exista posibilitatea sa ajunga abia pe seara la hotel. De aceea se recomanda ca cele mai importante obiecte pentru ziua de sosire sa se pastreze in bagajul de mana. Bagajul de mana este limitat si el la minimum din cauza spatiului redus din hidroavion si sunt permise doar genti de mana sau genti mici pentru laptop-uri, iar bagajul mai mare trebuie predat la check-in la sosire pe aeroportul Male.
- **Bagajul de cala gratuit este limitat la max 20 kg** (valabil si pentru turistii care calatoresc la clasele business, first sau Comfort) si la **3- 5 kg bagaj de mana** (in functie de TO rezervat; detalii in descrierea hotelului). Infantii nu au dreptul la bagaj gratuit. Excedentul de bagaj, per piesa sau transportat separat, implica costuri de aprox. **4 USD** per kg.
- **Daca zborul de retur decoleaza seara sau noaptea va rugam sa aveti in vedere ca transferul cu hidroavionul de la hotel catre aeroport se efectueaza dupa-amiaza cf restrictiilor referitor la lumina adevarata si cf organizarii partenerului local/hotelului la destinatie, iar preferintele turistilor in acest sens nu pot fi intotdeauna luate in considerare. Pentru mai multe detalii si suport puteti apela cu incredere contactul de pe voucher pentru asistenta locala si in caz de urgență.**
- Atat pentru transferul de dus cat si pentru cel de retur cu speedboat, hidroavion sau avion + speedboat turistii trebuie sa aiba in vedere un timp mai lung de asteptare pana la efectuarea transferului, acesta fiind specificul destinatiei.

## Important:

a) daca transferul se efectueaza cu **speedboat**, atunci nu avem restrictii cu privire la ora de aterizare a zborului long-haul pe MLE la sosire si ora de decolare a zborului long-haul de pe MLE la retur. Transferul se efectueaza la orice ora in conditii atmosferice favorabile.

Daca zborul de dus soseste in timpul noptii iar turistii doresc sa fie transferati la hotel si sa beneficieze de cazare in acea noapte, rezervarea la hotel trebuie sa includa si noaptea respectiva.

b) daca transferul se efectueaza cu **hidroavionul**, hidroavioanele opereaza doar pe lumina si in conditii meteo favorabile si trebuie sa fim atenti la urmatoarele aspecte:

1. Zborul long-haul de dus catre MLE trebuie sa aterizeze mai devreme de ora 15:15, cel mai tarziu.
2. Zborul long-haul de retur din MLE trebuie sa decoleze mai tarziu de ora 09:00, cel mai devreme.

In caz contrar, **ATENTIE** trebuie sa rezervam pentru turisti 1 noapte de cazare la un hotel de pe insula aeroportuara (de ex. hotelurile: Hulhule Island sau Absolute Maldives – cca 10 min. cu salupa) pentru prima noapte si/sau pentru ultima noapte, ceea ce presupune 1 noapte de cazare in minus la hotelul de sejur. Evident in functie de posibilitatile itinerariului, preferintele si criteriile cele mai importante pentru turistii, se poate opta pentru un alt zbor care sa aterizeze/decoleze in intervalul optim pentru efectuarea transferului in aceeasi zi. Important este sa cunoastem aceste restrictii in prealabil :-)

c) transferul efectuat cu **zbor intern** poate fi operat pana in jurul orei 23:00 dar la modul general avem in vedere:

**1. Zborul long-haul de dus catre MLE poate sa aiba restrictii** in functie de atolul pe care este situat hotelul si sa impuna un anumit interval de aterizare

**2. Zborul long-haul de retur din MLE –trebuie sa decoleze mai tarziu de ora 09:00,** cel mai devreme

Iata un exemplu de hotel pentru care transferul se efectueaza cu zbor intern (domestic flight) + barca rapida si exista conditii mai restrictive pentru ora de aterizare si pentru care am identificat in masca TBM atentionare:

Domestic Transfer nur möglich bei Ankunft in MLE zwischen 11-14:00 Uhr // RO: **Transferul cu zbor intern este posibil doar pentru aterizari in MLE in intervalul 11-14:00**

WICHTIG!: Bitte beachten Sie zwingend folgende Transferinformationen: www.ftigroup-info.de/MVTransfer Wir empfehlen den Transfer mit Seaplane, da es bei Buchung von Domestic Transfer zu langen Wartezeiten von 5-6 h am Flughafen Male kommen kann. Domestic Transfer nur möglich bei Ankunft in MLE zwischen <u>11-14:00 Uhr.</u>						

Verificati cu atentie descrierile existente pentru fiecare hotel in parte la TO pe care va decideti sa efectuati rezervarea.  
Ulterior procesarii rezervarii, verificati detaliiile acestora ( de ex: codurile BI / I si x in dreptul liniei de produs la TO la care este posibil sau Agreement Info/ Information available la TUID, ATID, LTUR)

Este posibil ca doar post booking sa se vada restrictiile cu privire la zborul de long haul.

!!! Pentru ofertele de la TO DER Touristik (DER, MWR, ITS, JAHN) recomandam sa verificati punctual la [helpdesk@dertour.ro](mailto:helpdesk@dertour.ro) daca exista restrictii privind zborul de long-haul pentru hotelul ales.

## I. Touroperatori germani in Traffics/ CosmoNaut

### 1. Touroperatori la care detaliiile de zbor se introduc direct in sistem:

1.1 Acesta este cazul touroperatorilor din grupul DER Touristik (**DER, MWR, ITS, JAHN**) unde in momentul in care dorim sa inchidem rezervarea utilizand action code B sau O, sistemul genereaza urmatoarea fereastra:

The screenshot shows a travel booking interface. On the left, there's a table for 'Action', 'Tour Op.', and 'Travel Type' with rows for 'O', 'DER', and 'DATA'. Below this is a section for 'Serviceline' with rows for 'TR', 'M', 'Req.', and 'ServiceLine'. A note says 'Bestätigung/Bearbeitung vorbehalt CRS made with love by traffics'. There are fields for 'First name' (TEST), 'Street, Postcode, City', 'Telephone, TLF, Mobile', 'Phone Email, Fax', 'Customer Number', and 'Comment'. At the bottom, there are buttons for 'Abbrechen' (Cancel) and 'Speichern' (Save). To the right, there's a 'Zusatzinformationen' (Additional Information) section with fields for 'LEISTUNG 02' (Arrival Flight Number / Time: MLE14119B) and 'LEISTUNG 03' (Departure Flight Number / Time: MLEOBSS09). Further right is a 'Transaction ID' table with columns for 'Item', 'Price', and 'Status'. A summary table shows 'Validity', 'Country', and 'Price' with several entries. At the bottom right are buttons for 'Send', 'Close', 'Clear', and 'Send'.

In acest caz introducem detaliile de zbor in formatul **companie aeriana numar zbor/ora aterizare (in campul Ankunft) si ora decolare (in campul Abflug)** ( ex. TK321/1100). Se ia in considerare ultimul segment de zbor, cel de aterizare in MLE, respectiv primul segment de zbor, cel de decolare la return din MLE.

Pentru finalizarea rezervarii dam click pe butonul Speichern (=salveaza)

This screenshot is similar to the first one but with specific fields highlighted. The 'Ankunft Flugnummer / Uhrzeit' field (Arrival Flight Number / Time) contains 'TK321/10:00' and the 'Abflug Flugnummer / Uhrzeit' field (Departure Flight Number / Time) contains 'TK541/11:00'. A large red box surrounds these two fields. A yellow arrow points downwards from this box towards the 'Speichern' (Save) button at the bottom. The rest of the interface is identical to the first screenshot.

Utilizam din nou action code B sau O pe masca in scopul finalizarii rezervarii. Rezervarea se va finaliza dupa ce a fost respectata regula de completare Client Details (stergem numele preluate si notam N in campul Mobile).

Dupa procesarea rezervarii si obtinerea numarului de rezervare in campul Transaction ID pentru a vizualiza detalii de zbor introduse pentru transfer procedam la urmatorii pasi

1. Afisam rezervarea in TBM utilizand codul de actiune D, cod de TO si introducem numar de rezervare in campul Transaction ID

## 2. Introducem 'ZI' pe linia multifunctionala

The screenshot shows a multi-step booking process. On the left, a table lists flight segments with columns for flight number, arrival city, departure city, and date. A red box highlights the 'ZI' (Optional Information) checkbox. The middle section is a 'Zusatzinformationen' (Additional Information) form with fields for flight numbers and times. A red box highlights the 'Transaction ID' field containing '105912080'. The right side shows a detailed view of the reservation, including a table of flight segments with columns for Return, Price, and Status, and a table of optional services with columns for Validity, Country, and Price. A red box highlights the 'Transaction ID' field again.

Daca mai departe dorim sa modificam detaliile de zbor ale turistilor, dupa ce am parcurs pasii de mai sus cu afisarea rezervarii si codul 'ZI', modificam detaliile, facem click pe Speichern iar in masca rezervarii vom continua pe rand cu codurile de actiune UA si apoi U.

### 1.2 Un alt touroperator pentru care este necesar sa introducem datele de zbor in sistem este **SLR (rezervarea nu poate fi inchisa fara completarea tuturor datelor solicitate)**

I. Tarifarea ofertei (action code "BA")

II. Procesarea rezervarii folosind codul de comanda "B" (rezervare ferma) sau "O" (rezervare optională). In acest moment sistemul nu va inchide rezervarea (primim urmatorul raspuns: **Fehler - bitte Buchungsinformationen des Veranstalters beachten**) iar in partea mediana regasim exemplu pe care treabuie sa-l urmam atunci cand completam detaliile de zbor pentru primul transfer aeroport – hotel: ***AN/ Numarul zborului / ora la care aterizeaza avionul:***

## 2. Touroperatori pentru care detaliiile de zbor se transmit offline la Helpdesk ([helpdesk@dertour.ro](mailto:helpdesk@dertour.ro)) in ziua in care rezervarea este ferma:

Acesta este cazul touroperatorilor germani ce pot fi rezervati direct in Traffics si care au transferul inclus, cu exceptia DER, MWR. Detaliile de zbor se transmit pe email in formatul **companie aeriana numar zbor/ data : itinerariu : orar de zbor** (

ex. FZ0559/ 10.09: DXB-MLE: 01:30-06:55) **Pentru a evita orice confuzie va rugam sa utilizati de fiecare data formatul orar de 24 h.**

**Detaliile de zbor se transmit in maxim 24h de la rezervarea ferma va rugam sa ne transmiteti pe mail la [helpdesk@dertour.ro](mailto:helpdesk@dertour.ro) impreuna cu numarul de rezervare detaliile complete de zbor SAU motivul pentru care nu le putem furniza in acel moment impreuna cu data la care ne angajam ca le vom comunica. In caz contrar operatiunea va implica costuri suplimentare !!**

In aceasta categorie intra si touroperatorii DER Touristik (DER, MWR, ITS, JAHN) travel type DATA in urmatorul scenariu:

- avem mai putin de 14 zile pana la check-in si incercam sa introducem detaliile de zbor, pe o rezervare pe care initial am efectuat-o introducand la detalii de zbor simbolul '???' → sistemul nu ne lasa sa finalizam modificararea

In acest caz transmiteti un email pe adresa [helpdesk@dertour.ro](mailto:helpdesk@dertour.ro) cu detaliile corecte.

### **3.Tourooperatori la care transferul aeroport-hotel-aeroport nu este inclus in ofertele de hotel only:**

→ Ofertele de hotel-only de la touroperatorul JUMB (Jumbo Touristik) **nu au contravaloarea serviciului de transfer inclusa automat in tarif**. Oferta de transfer se va solicita offline la Helpdesk, pe adresa [helpdesk@dertour.ro](mailto:helpdesk@dertour.ro) .

→ Ofertele de hotel-only de la TO german LMX // LMXI // XMLX pentru care in partea mediana din masca TBM sau in Informatii suplimentare de la furnizor (pagina de Prebook din Traviola Agentii in care introducem detaliile pasagerilor):

**A. sunt precizate mentiunile: 'HOTELINFO: Transfer zur Insel NICHT inbegriffen HINWEIS: KEIN TRANSFER INKLUSIVE'** (ca in exemplul de mai jos).

## II. Touroperatori germani din World of TUI

Pe destinatia **Maldiva** (MLE) la touroperatorii din World of TUI tarifele de hotel-only din modulul de *Accommodation* din IRIS.plus includ automat transferul de la aeroport la hotel si retur.

Pentru o reverificare se poate transmite oferta in *Shopping Cart* si observa mesajul de pe produs referitor la transfer:

The screenshot shows the IRIS.plus shopping cart interface. At the top, there's a navigation bar with links like Datei, Bugen & Beraten, Agentur, Kund... etc. Below it is a toolbar with various icons for search, filters, and actions. The main area is titled "IRIS.plus Individuell shopping cart". On the right side, there's a sidebar with "Agentur: 048563" and "Im Warenkorb enthalten: 01.12.-08.12. accommodation". The main content area displays a booking summary and detailed product information. A specific note in the product details states: "provider: TUI Deutschland GmbH (airtours) shown price applies for 2 Adults (Transfer included)".

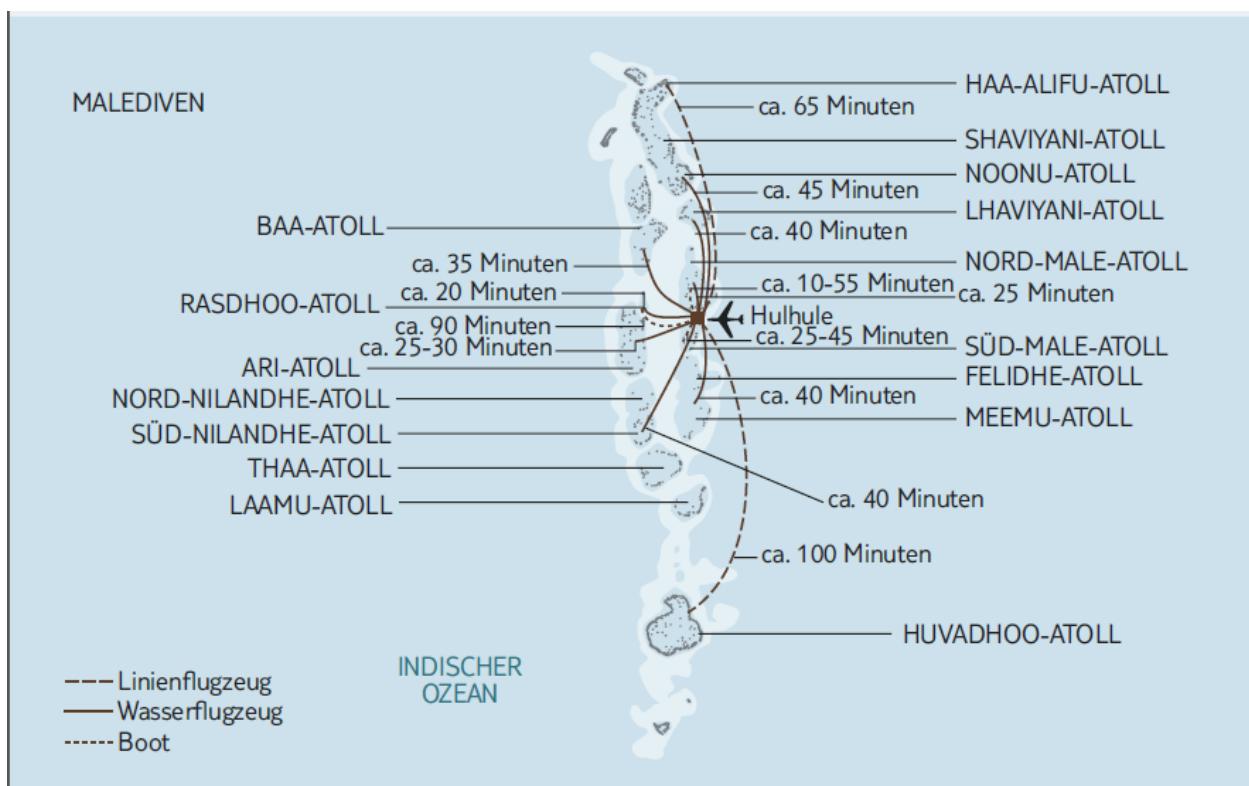

!!! Aceasta reverificare a informatiei se recomanda pentru fiecare TO din grup (TUID, Airtours) dar in mod special pentru TO LTUR.

**!!! IMPORTANT:**

1. pentru rezervarile de hotel-only pentru care transferul este inclus automat, este obligatoriu sa introducem pe linia de *remarks* (**in momentul in care rezervarea este ferma**) detalii de zbor dupa modelul de mai jos, pentru organizarea serviciului la destinatie: arrival flight - cod companie aeriana – nr zbor – ora aterizare MLE // return flight - cod companie aeriana – nr zbor – ora decolare MLE. In lipsa acestor detalii **nu vor beneficia de transfer**.

Detaliile despre modalitatea de transfer le puteti identifica in descrierea fiecarui hotel din Product Info, dar si in catalog, de unde am si extras urmatorul tabel cu informatii deosebit de utile:
